GREAT REJOICING.

First Autonomous Government of the Filipinos Established on the Island of Negros.

A THREE DAYS' FEAST WILL FOLLOW.

Gen. Smith Administered the Oath of Office to the Judge of the Supreme Court.

He is Torn Frowe in the Governor, Three Judges, Twelve Councillors, Auditor and Secretary of the Interior—American Flags Displayed.

MANILA, Nov. 7.—At Bacolod, in the island of Negros the first autonomous government of the Filipinos was established. Gen. Smith, the military governor of the island of Negros, administered the oath of office to the judge of the supreme court who in turn swore in the governor, three judges, 12 councillors, the auditor and the secretary of the interior. The natives of the entire island attended the ceremony. The officers from Iloilo were also present.

Three days feasting will follow in celebration of the government's birth and the first anniversary of the surrender of the Spaniards to the Negro-revolutionaries, ending with a ball in the government's hall Monday night. American flags are displayed in the village. The celebration consisted of horse racing and other sports, music, religious functions and an alumination. The ball Monday night attracted the wives of the wealthy planters and there was as great a display of rich costumes and costly dresses as could be seen at a similar affair in America or Europe.

Elections were held October 3 the number of votes cast being 5,248. There were 40 candidates for the various offices. Melecio Revorino was elected governor, receiving 1,305 votes. Senor Gamo received 1,317 votes. Sufrage was determined by property qualification and ability to read and write.

Col. Mires welcomed the official of behalf of the United States. In the course of his remarks he said:

"Negros leads in the van of civilization in the Philippines. You honor me in adding a new star to freedom's flag."

Gen. Smith, during a speech which he delivered, said:

"Our future promises as bright as Japan, which today is recognized as among the civilized nations of the world."

Gen. Revorino, in replying, said:

"The best thing for the future of Negros was the continuation of close relations with the United States."

Gen. Smith then announced the granting of freedom to the political prisoners in commemoration of the event.

Gen. Hughes in command at Iloilo, tendered a congratulatory speech over the eastern cable from that place. Gen. Smith in an interview remarked that was of the utmost importance that the Filipinos should be taught to recognize the sovereignty of the United States.

"The gravest danger," he added "threatening a peaceful administration is intrigue amongst the insular politicians and he declared that the United States government must for years keep control of the Filipinos in order to prevent such conditions from existing."

The members of the 6th infantry, which is divided into 30 garrisons throughout the island of Negros, are undergoing great hardships.

A recently organized revolutionary movement has been discovered in northern Negros and the leaders have been forced to withdraw to Pansy. A number of bandits, under the leadership of Papa Ilo, a religious charlatan, have been captured and condemned, but it is expected that they will give more trouble. A force of 30 native soldiers, armed with Springfield rifles, are helping the Americans and are found to be valuable as scouts.

No Extra Change in Hobart's Condition.

PATERSON, N. J., Nov. 7.—No official bulletins were issued at the Hobart residence Monday, as there was no noticeable change in the view presented by Dr. L. C. Ladd.

Except for antiseptics assistance there is no evidence that they have yet joined the Hobart openly in any appreciable number.

The reported British retirement from Stormberg Junction, however, will be followed doubtless by a similar Boer proclamation annexing the portion of the Cape Colony which directly south of the Orange Free State. These proclamations, he said, will be immediately followed by British court martial proceedings, but to the eye of the Dutch farmers the presence of one Boer commando probably more impresses than the expectation of the arrival of the whole British army in the more or less distant future.

The British newspapers publish a list of the transports due to arrive at Cape Town from Monastir. According to this some 30,000 men should reach

the Cape by the end of November.

the guns by the aid of naval vessels, the admiral issued a military warning Sunday evening to the effect that no disappointment must be met by the public if the transports should not arrive at the dates mentioned, dates which the war office says are "based in many cases upon too sanguine expectations."

LONDON, Nov. 7.—Tuesday morning's issue of the Times contained with respect to hostilities in South Africa very little further than the movements of Colenso and Stormberg. Those movements, taken together with the admiral's announcement that the public must be disappointed should the transports not reach their destination on the dates indicated in the published lists may indicate some change of plan necessitated by the arrival of the reinforcements in Natal. It was expected that the army would land near Cape Town for an invasion of the Transvaal through the Orange Free State, but the landing may now be diverted to Durban, Natal, whether it is fully expected Lieut. Gen. Sir Redvers Buller will go within a week or two to investigate the situation for himself.
